

## Call Server Interoperability

The table below details the Cisco call server that has been tested as interoperable with the Spectralink™ PIVOT:SC (8744) handset. Only the Cisco product listed in the table has been tested for compatibility and acceptable performance with PIVOT handsets. Spectralink does not recommend or support deployments with products not listed in the table. This document will be updated as additional call servers are tested. Interoperability documents are found on the [Spectralink 87-Series Support page](#).

Note: All software is subject to significant change from version to version. Only those configurations listed in this document are supported by Spectralink.

### Direct Integration

The following platform has been tested with Spectralink 87-Series models.

Partner	Platform	PBX Software Version
Cisco	UCS	9.0, 10.5, 11.x
